Re: Packaging and Packaging Waste Regulation Compliance

Dear Customer,

We are knowledgeable of the content of the EU Packaging Waste Regulation (PPWR) and confident that all Energizer products will meet applicable requirements within the periods of time set forth in the regulation. We will be issuing Declarations of Conformity (DoC's) for the packaging that we place on the EU market by 12 August 2026 and technical data will be made available to Regulatory authorities upon request.

Sincerely,
